Knowledge Organiser

Year: 1&2	Term: Autumn 1	Topic: Toys Observational Drawing – large and small scale

Observational drawing is **drawing what you see.**

You can walk around an object so you can see different angles. What you draw will be different depending on where you stand.

Different drawing tools can be used to draw with.

Wax Crayons

Drawing pencils

Pastel crayons

An object can be drawn on a large, small or life like scale.

Drawings can be done on very large paper or small paper.

The picture must fit the size of paper and drawings can be improved by adding extra detail.

Learning Objectives	
1	I can use pencil to create an observational drawing of a given object.
2	I can use pencil to create an observational drawing of a Victorian toy on a small scale.
3	I can use pastels to create an observational drawing of a Victorian toy on a large scale.
4	I can select my preferred media to draw a Victorian toy on either a small or large scale.
