Key Knowledge:

- In Spain, for dates we write the day of the week, then the day of the month, then the month of the year and finally the year.
- The year is not broken in two halves. We say the whole number as it is (two thousand, twenty-two).
- Date of birth and birthday is not the same. For birthdays we don't need the year, as we have a birthday every year!

Intercultural Understanding

The Day of the Dead in Mexico.

- Día de los Muertos is not the Mexican version of Halloween. Mexicans have celebrated the Day of the Dead since the year 1800 B.C!
- As it is celebrated today, it is a combination of this ancestral tradition and the celebration of All Saint's Day brought by the Spanish invaders.
- The official language of Mexico is Spanish. But there are other 68 national languages, 63 of which are native languages.
