Year: 3	**Term: Autumn 2**	**Topic: China and Dragons - Printing and Architecture**

A polystyrene tile can be used for printing and different patterns can be added by cutting the tile. When creating a print tile, it is easiest if image drawn first before scoring with a sharp object (pencil).

Tiles can be washed and used multiple times for printing and different colours can be added.

Printing is a way of putting images from one surface to another. In art this is usually done with paint or ink. Patterns can be repeated.

Zaha Hadid was an Iraqi-born, British architect known for her amazing designs. In 2004 she became the first woman to be awarded the Pritzker Architecture Prize. She has designed many different iconic buildings (from Fire stations to museums to schools and hotels) across the world including the London Aquatics Centre.

London Aquatics Centre - Architecture - Zaha Hadid

Learning Objectives	
1.&2.	I can make a print of dragons using at least 2 colour overlays
3.	I know some key facts about Zaha Hadid and her architecture
4.	I can show what I have learnt
